WEBSITE IDEA: I want to recreate the Hubble Space Telescope website, but on a smaller, simpler scale.

PROJEC GOALS: To retain the "essence" of the actual website so that I can get a grasp on what building such a site would entail while keeping it beginner friendly.

VALUES/BENEFITS: This site is educational and aims to break down a very complex subject into beautiful, digestible and informative chunks that are accessible to anyone interested in learning more about space.

EXPECTED LIST OF FEATURES:
- Main page
  - Header
  - Footer
  - Navigation
  - Social media links
  - Embed the latest tweets
- Contact Us
  - Breadcrumbs
  - Comment form
  - Contact information
